FIGHT BACK FOR BRITAIN!
Men and women of every race understand that
Race-mixing destroys our People

WHEN *NF News* **said that White Nationalists and Black Separatists should co-operate in our common struggle against multi-racist tyranny, many people said it couldn't happen. But as the picture above shows –** ***it is happening already!***

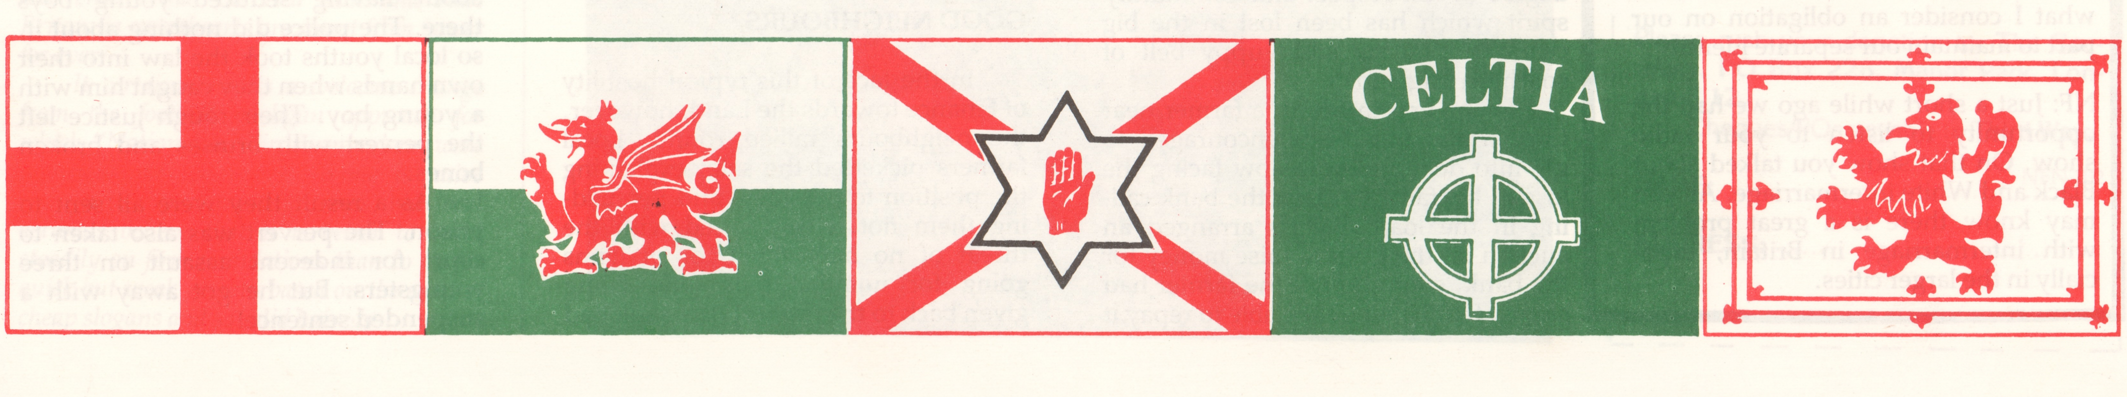
Left wing bigots said that the NF ***couldn't*** **work with Blacks. Right wing bigots said that the plan** ***wouldn't*** **work, because "there are no genuine Black separatists" –** ***but now we've proved them wrong!***

Osiris Akkebala (pictured above left) believes that the NF policy of repatriating immigrants is "very humane" and "not in any way racist." He is convinced that race mixing is "racial genocide."

And Mr Akkebala is ***not*** **an isolated individual. He is Chief Elder of the Pan-African Inter-National Movement. His organization is heir to the tradition established by Marcus Garvey – the great Black leader in America who campaigned between the wars for Blacks to return to Africa.**

He wants to see international conferences of separatists from all races helping to organize the common fight against racial integration.

☛ Now Turn To Page 2!



P.A.I.N. stands for Pan-African Inter- National. The organization follows the ideas of Marcus Garvey, the great American Black leader who organized an international movement of 10 million Blacks calling for resettlement in an independent homeland in Africa.

Garvey was destroyed by the lie machine of the U.S. secret services, but his ideas live on in P.A.I.N. The organization has a set of 25 standards by which it operates. The first states clearly that "The P.A.I.N. shall oppose integration in any form." Point 12 forbids any member to "engage in the act of miscegenation". Others demand respect for women, total opposition to drug abuse and a decent upbringing for Black children.

MUCH COMMON GROUND

So there is clearly a great deal of common ground between these Black nationalists and the National Front. ***NF News*** is therefore very pleased to be able to reprint some of the key points from an interview given to a representative of the NF by the Pan-African Inter-National Movement.

Its head, Chief Elder Osiris Akkebala runs a radio show with more than a million listeners in Florida. He is a widely respected figure among Black people living in America. ***NFN*** is delighted to be able to give him a platform in Britain to get across his organization's views to White separatists, and the growing number of Blacks who also read this paper.

★★ THE FULL text of this abridged interview will appear in the next issue of ***Nationalism Today.*** ★★

NF: As you know, the National Front in its 20 year history has advocated the repatriation of Blacks. If a nationalist government were to come to power it would provide financial incentives to non-Whites to return and set up new lives in their homelands. Do you think this is a good idea, or do you feel as many of our opponents say, that this would be wrong?

CE: Well, I think it's a good idea and it is not in any way racist whatsoever. I think it's a very humane thing to do.

NF: As we understand it your group is the spiritual heir to the Marcus Garvey movement. Could you give a little information about your organization?

CE: We adhere to the ideas of Marcus Garvey to the letter. We totally believe that Africans in America have a right to an independent nation state, or homeland, back in Africa. The United States, along with other European nations, which took part in the enslavement of the African people, have an obligation and a right to repatriate the descendants of those African slaves, and assist in whatever way they possibly can in returning them to Africa and setting up an independent nation state.

NF: What would be the location of this state?

C.E.: Mostly in central Africa.

NF: Some groups talk about setting up an independent Black nation on the soil of North America, or setting up a separate economy, where Blacks would have their own power base. But you are talking about a total separation and a new nation in Africa. Could you comment on the British situation with regard to other groups which may share the same point of view as your group?

CE: The Pan-African Movement stands ready to take its message anywhere there are people who are interested in hearing about African people in this country and about Garvey's philosophy.

I think it is an obligation on our part to spread the truth about the sacredness of the separateness of the races. To advocate racial pride and racial separation is no more racialist than loving oneself. I think this is the natural makeup of each individual in accordance to his or her race that God has installed within us. Therefore it is what I consider an obligation on our part to maintain our separate identity.

NF: Just a short while ago we had the opportunity to listen to your radio show. On that show you talked about Black and White intermarriage. As you may know there is a great problem with intermarriage in Britain, especially in the larger cities.

CE: I have a radio talk show in Orlando, Florida, which is called "Strait Talk." My position on interracial marriage is that it is against the very law of nature – i.e. that which we consider the law of God... So to answer your question, I am in strict opposition to intermarriage or the intermixing of one race with another to the extent that it leads to miscegenation and brings about racial genocide.

NF: The NF Third Position attitude towards race is that of separatism and freedom and not domination or imperialism. How do you think we can cooperate to promote this message?

CE: I think that through organizing international conferences we would bring about greater understanding and develop a more dynamic relationship between our groups, which are really advocating the same thing – the philosophy of racial separation.

Once we establish this coalition we can assist one another for our mutual benefit in terms of communication, fund-raising and publicity. We must learn to share in those fields and developments.

NF: As you know, the racial situation in Britain is very bad. If you came to Britain what would your message be to young Blacks here?

CE: I would tell them that their destiny is back in Africa. Because I understand and see the future. And one day there will be a reunification of Africa, and all Africans scattered abroad will have to look back to whence they all came. It is up to the individual. But for anyone who wants to become a part of this exodus to the homeland, we are not asking them to go back to a state of poverty.

NF: If you came to England with this message, you would be confronted by liberals and Marxists – primarily White race-mixers – who would find what you say distressing. They would accuse you of co-operating with "racialists." What would be your reaction to them?

CE: If you understand that "racism" is merely something imposed by White integrationists, you would know that racialism is simply advocation of separateness, which is in keeping with the law of God. Integrationists are in opposition to the laws of nature.

NF: The liberal education system in Britain is telling the young Black that he or she has great advantages in staying here. Are you asking young Blacks to go back to Africa where, as liberals say, they would have no such "advantages"?

CE: Nothing is more sacred than nationalism. How can one be at an advantage when one is labouring under a government that is controlled by people who are different? We are asking to go back home so that we would be in charge; have our own heads of state, enact our own laws, institutions and systems. What can be greater than that?

NF: Everywhere in the world where you have this kind of mixing, whether it is the Indians with the Fijians, or the Sikhs and Hindus, it has been a disaster. Miami in Florida is an example of where Blacks and Hispanics are fighting one another. Given this tension and violence, why do you think the capitalists are pushing race-mixing?

CE: When you are in control and have all the power, your elitist position is not threatened by miscegenation. You can create a mixed race, which can be easily controlled.

NF: Are Blacks ready to reject intermixing and intermarriage?

CE: I think the advocates of integration are succeeding at a fast pace. We have a very serious job ahead of ourselves, both Black and White nationalists who are fighting for our racial heritage and identity. So let's not fool ourselves. The enemy has penetrated our peoples very deeply.

HOME AFFAIRS

COMMUNITY ACTION

TWO EVENTS in Wales at the end of last month gave a welcome indication that folk living in rural areas retain a degree of self-respect and community spirit which has been lost in the big cities and in the soft yuppy belt of southern England.

In the first incident, a farmer near Carmarthen had been encouraged to get into debt and was now facing the loss of his farm through the bank calling in the loan. Bailiffs arranged an auction on the farm to raise money for the bank, even though the farmer had shown that he would be able to repay it at the end of his short term cash-flow difficulties.

GOOD NEIGHBOURS

In the face of this typical hostility of Finance towards the Land, however, the neighbours rallied round. Local farmers picketted the sale, explaining the position to outsiders and persuading them not to go. Faced with the threat of no bids at all, or of items going for nominal bids (and being given back to the farmer), the bank had to call off the auction and give the farmer more time to raise the money.

In a Nationalist society, of course, such a situation would not arise, as finance would exist to serve the people, not the other way round.

A few days later, five young men from the small mid-Wales market town of Tregaron were jailed for beating up a child- molester. This creature had recently moved to the area and was sickening local people with his boasts about having seduced young boys there. The police did nothing about it, so local youths took the law into their own hands when they caught him with a young boy. Their rough justice left the pervert with bruises and broken bones.

As a result they were all sent to prison. The pervert was also taken to court for indecent assault on three youngsters. But he got away with a suspended sentence!

HOME AFFAIRS

AGAIN THEY FREEZE ON THATCHER'S SCRAP HEAP

WINTER is upon us yet again – the season of repeats on television and ice and snow. Christmas has been and gone and "our" monarch and various ageing pop stars have again hit the screens trying to make us feel guilty for Third World famines.

But they never bother to mention the annual winter crisis which afflicts *our* own nations. In the winter of 1985/86, a massive 173,000 old age pensioners died in Britain from cold and malnutrition.

Most of them had sweated long hours in factories on low pay; they watched their fathers, brothers, husbands and friends fight and die in needless Zionist-inspired wars. Then they gave their best years working in the vain hope of "a land fit for heroes." The reward for their sacrifices? A cold and lonely death at the hands of Thatcher and the System she represents.

CRUEL LOGIC

The logic of Thatcherism (i.e. capitalism) is that if you are unprofitable – whether young, old or unemployed – you are not worth looking after. Unless you help to line the pockets of the idle rich and fatten the City institutions, you are surplus to requirements. Capitalism sees workers as just another link in the production chain, so once they cease to be profitable, they can go the way of outdated machinery – onto the scrapheap.

The "divide and rule" tactics of the Tories have succeeded in making the problems of the elderly appear to be separate from the other injustices they perpetrate against our peoples and nations. This must be fought tooth and nail by our Movement. The old don't die just because they are old, but because the necessities of life – food, shelter and warmth – are kept from them because they are old and unprofitable – a fatal mix in a society where Money is God.

LABOUR NO BETTER

Nor does the Labour Party offer any real alternative. The value of pensions fell even further under the last Labour government than under this one. And Labour's activists are too busy calling for enormous increases in foreign aid to corrupt Third World governments to worry about our old folk.

But we, as National Revolutionaries, recognize that *all* Britain's people are part of a family, and that as in any family, its weaker members must be cared for by the others. The problems facing Britain's old folk are OUR problems as well.

It's not enough just moaning about Thatcher's inhumanity, *we must work* within our communities to help our pensioners – this and every winter.

PRACTICAL HELP

All NF cadres and *NFN Supporters* must find out about the pensioners living on their own in their area. Offer to help with shopping, clearing snow and ice (liberate some sacks of road salt from a council depot), or simply call in every so often for a chat and to make sure they're all right.

As the State won't provide adequate care for the elderly, then we must. We must never forget that Community Politics begins with *People*. Nor must we forget the System and the rulers who have betrayed our old folk.

WHILE OUR YOUNG FOLK TOO ARE THE VICTIMS OF A SICK SOCIETY

THOUSANDS of Britain's youngsters are being driven to theft, extortion and prostitution to pay for their addiction to the fruit machines which infest most of our pubs, clubs and public places.

According to a report issued by the National Council on Gambling, most teenage gamblers react to these soulless machines in the same way as animals react to food–identify experiments. The results are misery, despair and even death.

The gambling addiction often begins at the age of eleven, with some kids spending thousands of pounds on slot machines. Up to 60% of pupils in some schools are addicted. They spend their dinner money in machines in cafes, chip shops and 'amusement' arcades. This is in spite of the fact that they are still in school uniforms and should be forbidden access to the machines by the owners of such establishments.

DRIVEN TO SUICIDE

One sad addict, 23 year old Bobby Thomson, from London, recently killed himself to end the trauma of his futile addiction. In his suicide note he wrote despairingly:

"There is not a minute when the machines are not on my mind. It's their lights and the noises. Most of all the flashing lights. I dream about them and can't get them out of my head. I feel as if I am losing my sanity. The machines should be banned. They are bad, bad, bad."

In another recent case, a 17 year old girl spent £70 a week, having started gambling when she was just 13. And there have been numerous cases of young girls and boys resorting to prostitution to feed their addiction to the mechanical monsters.

When the youth of a society have no greater goal than the cheap 'thrill' of feeding money into flashing, bleeping hunks of electronics, that society is both morally and spiritually bankrupt. When the youth of a society consider the vanquishing of a video screen full of space invaders an achievement, then that society has no hope.

Our Movement must give Britain's youth moral and spiritual guidance, as well as policies for a better material life. We must give them a **real** goal to aim for. That goal is National Revolution for Britain and Europe. That goal is Life! What greater gift can we give our youth? What greater service can we give our nations!

eat lead kiddies

Despite clear evidence of the terrible effects of lead pollution on the health and intelligence of children, Britain is lagging far behind Europe in the use of lead-free petrol. Whereas 10,000 stations in West Germany sell unleaded petrol, there are only 500 outlets in Britain.

And although 60% of Britain's cars could run on unleaded petrol with very cheap and minor alterations, only one in 1,000 motorists actually uses it. This compares with 40% in Denmark.

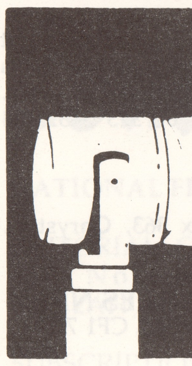
Since the lead content in our petrol was lowered because of public pressure in 1983, lead levels in children's blood have dropped from an average of 10 units to 7.8 units. Yet a recent survey of lead levels in vegetation along the M25 motorway found concentrations "near a level that mining companies would consider a worthwhile deposit for recovering metal."

The government could change all this simply by cutting the duty on unleaded petrol to give motorists a real incentive to change over to it. But the Chancellor looks set instead to give more tax cuts to the super rich. After all, how many MP's have to watch their kids play near Spaghetti junction or next to the North Circular?

DISCLAIMER

THE NATIONAL DIRECTORATE wishes to make it clear that *The Flag* and *Vanguard* are **not** National Front publications. They do not reflect NF policy or strategy and do not speak for the National Front.

They are produced by a small clique of reactionaries, crooks and drunks expelled from the movement last year. Officials are reminded that both publications and their editors are proscribed. Members of the public are warned that the National Front cannot be held responsible for money lost on subscriptions to *Flag* and *Vanguard* should they cease publication.



Over the Hill!

THE NF's mini-campaign against the new book by the convicted thug, crook and paid grass Ray Hill has had a good effect. His book *The Other Face of Terror* has been largely ignored by the mass media. Even where it was reviewed, little was made of his ridiculous allegations against the National Front.

An article about it in the *Sunday Telegraph* of 7.2.88 didn't even mention the NF, even though the book's conclusion is that the Front is the only credible Nationalist force in Britain today. Instead, it concentrated on his announcement that he had been threatened with death by a group of Italians. How thoughtful of them to wait until two days after his publication date, when it was becoming clear that the book had flopped!

LIBEL BILL

The silence from the broadcasting media was even more deafening. This was undoubtedly partly because of the enormous libel bill which the BBC had to pay out last time it relied on "facts" produced by Hill's Zionist friends in *Searchlight* magazine. But it also shows the considerable impact of the NF's rapid response to his lies.

The last issue of ***NF News*** shot his main allegations down in flames before the book was even published. Copies were sent, together with a more detailed four page press statement giving the NF case, to every national newspaper and broadcasting body.

This, together with *Searchlight's* growing reputation for landing journalists in court or in front of media complaints bodies, persuaded the TV and radio networks to avoid the liar Hill like the plague.

RIGHT OF REPLY

Only the Manchester-based Piccadilly Radio gave him airtime for his wild fantasies, in an hour long interview. But a worker there tipped off the NF that he was due to appear. So even before he had opened his mouth, NF spokesman Pat Harrington had persuaded the editor to give him the right of reply on behalf of the Movement.

Mr Harrington got almost as much time as Hill. He used it to good effect, refuting Hill's allegations and going on to explain the NF's true attitude on Race and various other policy points.

Once again, it was very noticeable that all Hill's references to the National Front are based on hearsay "evidence", and that all his allegations against us are very vague. Such rubbish would be laughed out of court if we ever get a chance to bring a libel action. That is why Hill avoids mentioning names, places or dates.

TONED DOWN

It was also interesting to see that this paid liar has been forced to tone down his allegations. What started off as "para-military training camps" (i.e. ones with guns) are now described as "survivalist training" – something completely legal and respectable, although even these are figments of his fertile imagination.

Stranger still is the different tale Hill uses to explain his "conversion" from race hate bigot to paid informer. Some while ago he said it was when he was saved by a Black after a car crash. Now, he claims it was when he watched Blacks in South Africa being evicted from their homes. Make your mind up, Ray!

The National Front's fight back against this corrupt liar will go from strength to strength. A more detailed reply is being worked on for widespread distribution. In the meantime, copies of the NF's initial statement are available from Burning Books. Simply send a stamped addressed envelope to BCM Burning, Lndon WC1N 3XX.

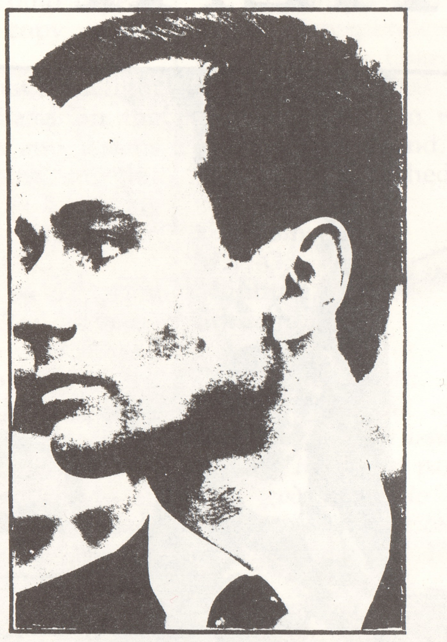
Anderson in Court



AS WE go to press, the most sensational NF expulsion case since Ian Anderson went with Martin Webster to the High Court in 1984 is about to take place. Ian Anderson is now due to appear in public open trial at Hitchen County Court, Old Park Road, Hitchen from 16th February.

Anderson joined the Front before dropping out of Oxford University in the 1970s. As a close colleague and personal friend of former National Activities Organizer Martin Webster, Anderson was rapidly promoted, becoming party Deputy Chairman and head of Administration by 1982. Acquiring a reputation for ruthlessness, he took over the prosecution of internal disciplinary actions and expulsions.

His importance reached its height in 1984. He masterminded the expulsion of Webster himself and took over the key offices of Chairman and National Activities Organizer.

ACCUSED

Anderson is now accused, among other things, of having unconstitutionally "fiddled" the purported expulsion of Victor Logan in 1983. Logan was a little known local organizer who was among many members to "disappear" during the Webster/Anderson era of the early '80's.

Logan's best claim to fame was his determination to continue NF activities even after suffering serious injuries in attacks by Communist thugs. In fact he even used payments from the Criminal Injuries Compensation Board to finance his NF General Election candidature.

Logan maintains that his expulsion was 'fiddled', involving bogus evidence and made in violation of the NF's constitution and interests. Mr Steven Brady, who is one of about a dozen figures from different stages of the NF's history summoned to appear by the court, has already made and filed a legally sworn affidavit before his local Milton Milton Keynes County Court.

In this, Mr Brady states that the leading planners of the campaign to hound Mr Logan from politics were Messrs Anderson, Woodbridge and the latter's friends Morgan and Wheatley. Morgan was the main witness against Logan at his "trial." Despite numerous attempts to contact him he appears to have gone to ground. The Bailiffs report that they have been unable to serve a summons on him. Similarly, attempts to contact Mr Anderson by phone get no further than his answer phone.

NFN will be watching with interest to see who actually turns up on the day. Next issue should carry a full report on the case and its outcome. It is important that justice is done and that the NF's constitution is upheld and respected.

DEAR EDITOR

Scotland

Dear Editor,

As a Scottish Nationalist I support the idea of an independant Scotland, free from control of the multi- nationals and banks. I have read in *NF News* about what you call the "Family of Nations" and of your support for an independant Ulster. But I have not read anything about your position on an independent Scotland. Could you please inform me of your policy?

I do not understand why your paper carries an advert for badges proclaiming "Remember 1690" when you claim to be a Third Position party. Surely the NF does not support the idea of a monarchy?

The flag you use for Scotland on your front page in not the Scottish national flag, but the Stuart standard. The national flag of Scotland is the cross of St. Andrew.

Yours respectfully,
W.J.,
Glasgow.

Editorial reply: The NF's ideas on the structure of government are explained in depth in the latest ***Nationalism Today.*** *Each of the British nations will be run by its own people through their National People's Council. Although a supra- national body will exist, this federated structure will give the Scottish people their independence. These ideas still need to be developed fully, when greater emphasis will be placed upon them in our publications.*

Our aim in Northern Ireland is to go beyond the religious divide and to create a new focus of loyalty for all her citizens in the Ulster nation. "1690" is a problem. On the one hand it is a key date in a rich loyalist folk tradition which must be preserved. But it also involves the futile sectarianism which must die if Ulster is to be reborn. What do other readers think?

The NF does not have an official policy on the monarchy. But it is the personal opinion of the ***NFN*** *staff that it is unacceptable. On a practical level, the monarchy is totally intertwined with the capitalist system we seek to destroy. Both the Queen and her heir have repeatedly made clear their opposition to Nationalism and their support for multi-racism.*

Ideologically, it is a strange kind of democracy which puts such enormous influence in the hands of one individual on the strength of an accident of birth. In Britain's undemocratic constitution, parliament and the monarchy are interlinked. In the move to real democracy, they must both be dumped in the same historical litter bin!

The Stuart banner itself had no design, it was simply white and crimson. The Lion Rampant has been used since the time of King Alexander II (1214 – 1249).

Liberation campaign is needed

Sirs,

I would like to know why your Movement claims to demand the immediate closure of all foreign bases on British soil, yet does nothing to demonstrate this demand outside any one of the 100 US bases across our country.

Nationalist movements across the world have always shown their resentment at being occupied by foreign troops – the Tibetans against the Chinese; the Algerians against the French; Afghans against the Russians, etc.

It is time to show America that British Nationalists deeply resent the occupation of our lands and that we want total independence from them: politically, militarily and economically.

As the leading Nationalist movement it is up to the National Front to organize a demonstration or a rally outside the American embassy or one of the bases. They have been here over forty years. Now is the time to show them that they are not welcome.

Briton against US occupation.
West Midlands.

Editorial comment: As ***NFN*** *noted several times last year, we recognize that the removal of all aspects of Yank influence in our continent is the most important short-term task facing the National Revolutionary movements of Europe.*

It is now several years since the NF's big anti-US campaign, which did involve widely publicized demos as well as the distribution of large quantities of anti-occupation publicity material. It is heartening to see demand for a renewed drive in this direction building up.

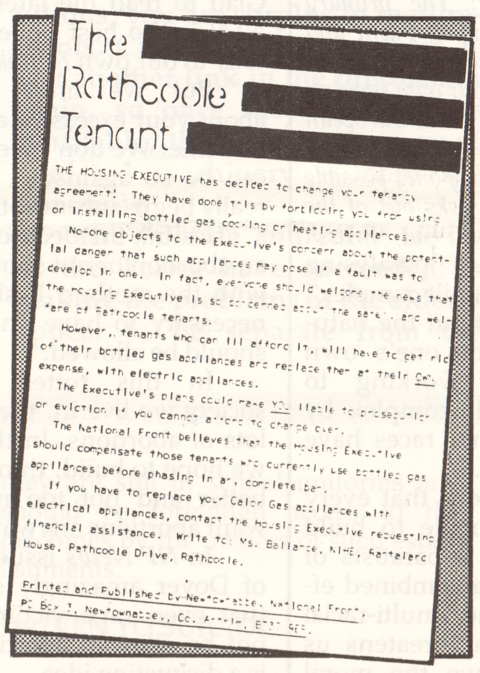
The ground **is** *being laid for a hard-hitting political campaign on this issue, but there is some way to go before it is practical. At present the Race campaign must take priority – but we haven't forgotten the Yanks!*

Community Action~ The Way Forward

Following a number of successful initiatives during the course of 1987, the Movement wishes to announce the formation of a Community Action Department. The task of this new department will be to co-ordinate and improve upon existing community activity by units, and to give advice and, if possible, assistance in the development of new projects.

The Community Action Department, therefore, requests **all** Organizers to send in, over the next **fourteen days,** details of all recent community work undertaken (if any), proposals for future activities, *and a copy of a recent, large circulation local newspaper.*

Please post as soon as possible to:
Community Action Department,
P.O. Box 57, Romford, Essex RM7 9BG.



The [redacted]
Rathcoole [redacted]
Tenant [redacted]

THE HOUSING EXECUTIVE has decided to change your tenancy agreement! They have done this by forbidding you from using or installing bottled gas cooking or heating appliances.

No-one objects to the Executive's concern about the potential danger that such appliances may pose if a fault was to develop in one. In fact, everyone should welcome the news that the Housing Executive is so concerned about the safety and welfare of Rathcoole tenants.

However, tenants who can ill afford it, will have to get rid of their bottled gas appliances and replace them at their own expense, with electric appliances.

The Executive's plans could make YOU liable to prosecution or eviction if you cannot afford to change over.

The National Front believes that the Housing Executive should compensate those tenants who currently use bottled gas appliances before phasing in any complete ban.

If you have to replace your Calor Gas appliances with electrical appliances, contact the Housing Executive requesting financial assistance. Write to: Ms. Ballance, NIHE, Rantalard House, Rathcoole Drive, Rathcoole.

Printed and Published by Newtownabbey National Front, PO Box 7, Newtownabbey, Co. Antrim, BT37 0EF.

FOLLOWING the Doagh Road by election in Newtownabbey, the local *NF News Supporters Unit* decided to step up their political profile in the area.

They have become very active in **Community Action** work and have already challenged the local Housing Executive's decision to change the tenancy agreement for some flats and maisonettes in the Rathcoole Estate.

David Kerr, Newtownabbey NF spokesman, told *NFN:*

"During 1987 the old Belfast gas supply was shut down. Tenants who had gas heating and/or cooking appliances either had to switch to bottled gas or electricity. At the time, the Housing Executive, which is Ulster's main housing authority, did not advise tenants which scheme to choose. However, they later told tenants that, for safety reasons, they could not have bottled gas and that they **had** *to change over to electricity."*

On hearing this, the NF leafletted Rathcoole. The leaflet praised the Executive's concern for tenants, but demanded compensation for those involved. This action gained publicity in the *Belfast Telegraph* and the *Newtownabbey Times*. Because of NF pressure, the Executive is now "reviewing" the matter and may give financial assistance to Rathcoole's tenants.

Commenting on the news, David Kerr said: *"The Executive is notoriously stubborn and bloody-minded. Even to get them to 'reveiw' a decision is a victory. We are closely monitoring the situation and will act again if we don't hear from them soon."*

All ***NFN Supporters Units*** should embark on similar **Community Action** initiatives. Help our folk fight back against local council tyranny and bureaucracy – **get active today!**

NAZI SCUM

THE ATTACK on Nazism in the "British Nationalist" movement in the latest ***Nationalism Today*** is very timely. It has at times been thought that this sick political death cult need only be ignored by genuine Nationalists for it to fade away. This is not the case. Nazism is a disease which must be **fought** and eradicated from even the fringes of political life in Britain.

Two factors make this vital to the future growth of the National Front. The first is *practical*. The old 'logical fallacy' of anti-NF propaganda – "the Nazis called themselves Nationalists, the NF are Nationalists, therefore the NF are Nazis" – is still used against us. It is wearing pretty thin, but the existence of even tiny groups of Nazi lunatics hanging around the fringes of the Movement allows the media to tar us with the same brush. They also provide a dead end for naive youngsters who get caught up in political necrophilia when they should be working with us to build a better future. Nazism, quite simply, is political suicide.

IDEOLOGICALLY INCOMPATIBLE

And it is also *ideologically* incompatible with our views. The National Front calls for true democracy. Nazism calls for the abolition even of the semblance of democracy which exists today. The National Front seeks to promote individual and community self-determination. Nazism promotes a ludicrous personality cult of the 'leader.'

Most of all, the National Front is a Distributist movement. We want to see the decentralization of political, cultural, economic and physical power to the lowest possible level. This is summed up in our slogan "Power, Wealth and Arms in the hands of the People."

Nazism, in total opposition, seeks to centralize power, wealth and arms in the hands of the *State*. Just like its Fascist twin and its Communist mirror image, Nazism is a statist creed. They are all collectivist. This includes the brand of Nazism known as "Strasserism," which has support among the group of political parasites involved in the bigot magazine *Vanguard*.

STRASSERISM AS BAD

The Strassers quarrelled with Hitler personally, and their Nazism was not so fawningly pro-capitalist as the main brand. But it still sought to place enormous political and economic power in the hands of the State. So it is just as unacceptable.

There are several kinds of Nazism on offer in Britain today. There is the open Hitler worship of the uniformed lunatics who crop up every now and again in the *News of the World*. There is the closet Nazism of the dead end British National Party under John Tyndall. There is the Strasserite clique already mentioned. And there are the nihilistic gangs of football hooligans and glue- sniffers.

These people are not fellow Nationalists. They are parasites on our Movement. Nazism is a cancer. The operation to cut it out from our Movement must continue.

DEAR EDITOR

Race

Sir,

Whilst the NF's new stand on the question of Race is to be applauded (with minor reservations) I sincerely hope that *NF News* is not, as it would appear, becoming a pale copy of the 'Afro-Asian Times.'

One would have thought that an *over*-emphasis on the "rights" of Blacks and Asians temporarily resident in this country would be as damaging to the Movement as the "racist bigotry" of the past.

It must *never* be forgotten that whatever the National Front has to offer – and it has a very great deal to offer – the fundamental reason for its existence is the preservation of the White race and *its* rights.

If this basic principle is ignored, the Movement becomes as irrelevant as the perverts, prostitutes and traitors who slobber and simper their mincing way through the corridors of the House of Commons.

Keep fighting!
W.G.Y., (FOM)
London SE.

Editorial comment: The primary concern of the National Front and this paper is, and always must be, the preservation of our own people's White racial identity and European culture.

But this is clearly only possible if the Movement breaks out of the old racist ghetto. The British peoples do *have a paralysing media-installed "guilt complex" about race and about the natural preference for one's own kind. We are working to destroy this guilt complex by showing that other races have the same feelings.*

And we believe that every effort must be made to build links with racial separatists of other colours in a combined effort to end the multi-racial nightmare which threatens us all. We only have the moral right to demand the survival and independence of our own folk if we speak in support of the same rights for others.

Weapon

Dear Sir,

I was interested to read your issue 98, November 2. Congratulations on the layout and presentation on page 1.

I have taken up the matter in the correspondence column of the *Dundee Courier* – daily circulation 250,000 – so the message has been well broadcast in East Scotland. I enclose a copy of the published letter.

Yours sincerely,
M.F.-G.
Montrose,
Scotland.

Editorial comment: All readers should follow this example and write letters about issues raised in ***NFN*** *to their local papers. It is a very good way to spread the Nationalist message to a far wider audience than usual. This paper is a weapon – use it!*

Abortion

Hello NF News!

Glad to read the latest papers. *NFN* is the best paper, second only to our own *Nordikfist*.

But we must complain about your excessive anti- abortion line. We don't see why you can be so against it. Does life really begin at conception?

I think the decision to have an abortion or not should be left with the mother. If she feels it necessary to have one, then it should be allowed.

In this rotten capitalist society we live in, there will be lots of abortions. In the society we hope to build, things will be better and not too many will want abortions anyway.

In *NF News* issue 99, A.R. of Dover amazingly suggested that even rape victims should not be allowed abortions. This is a disgusting idea.

Greetings
Alan (Nordikfist)
Sweden..

Editorial reply: The National Front is a movement based on fundamentally spiritual values and on respect for Life in all its forms. We are opposed to the nineteenth century liberal view that the isolated individual is all important and has the 'right' to do whatever he or she wants, regardless of the harm it does to the environment or community.

To talk of the 'right' of a woman to control her own body, but to ignore the right to life of an unborn child is hypocritical nonsense. The majority of NF members hold a spiritual view of life, from the standpoint of various religions and beliefs. We believe that human beings are something more than lumps of reasonably intelligent meat. And when you accept that each individual possesses a soul or a share of a univeral life force (depending on your religion), it is only logical that this exists from conception, at which time the individual immediately possesses all the potential for future growth.

So you can't escape from the fact that abortion takes the life of a human being. In other words, it is murder! It may be that a healthy society will approve of it in certain circumstances (just as we accept the justice of judicial murder for child killers). The majority of NF members similarly accept abortion in the case of severe handicap, or after rape, as the lesser of two evils. A.R. of Dover was expressing a personal view, not NF policy.

But the murder of literally millions of healthy human beings as a matter of convenience and short term economic selfishness is quite unacceptable. Nationalism is about communities. We do not understand how any true Nationalist can accept such a brutal attack on the most helpless and innocent section of their community.

NATIONAL FRONT NEWS is Britain's only National Revolutionary newspaper. This makes it the only real alternative to the unholy alliance of capitalist media bosses and communist hack journalists which dominates the "British" press. If you want to read the ***truth*** about what is going on in Britain today, you'll only find it in ***NF News.***

This is why capitalist newsagents chains refuse to stock it, and why Marxist thugs and the Tory-controlled police often try to stop ***NF News*** from being sold on the streets. So if you want to be sure of receiving Britain's only genuinely Nationalist newspaper every time it comes out, take out a subscription today.

For just **£8, (£10 overseas; £18 USA and Far East)** you will get 12 issues of ***National Front News*** delivered to your door. Please make cheques/PO's payable to ***Nationalist Publications*** and send by *recorded delivery* to **PO Box 228, Manor Park, London E.12**

ABORTION: The Holocaust must end

A Third Way Beyond Capitalism and Communism

RACIAL ATTACKS: Stop this futile violence

LIBERATION STRUGGLE IN TIBET

CELTIA

BECOME A FRIEND OF THE MOVEMENT

YOUTH UNEMPLOYMENT is one of the most tragic and wasteful aspects of modern Britain. Hundreds of thousands of young people should be acquiring skills and helping to build a better nation. But instead they are forced to rot on the dole, often drifting into drugs or crime as a result.

The National Front seeks to give young people real hope for the future. Not just by offering a way to struggle for political change, but by giving advice on how to set up their own businesses and get to work for themselves.

WHERE WE STAND

NATIONAL FREEDOM

Britain is a Family of Nations – England, Wales, Scotland and Ulster – linked by blood and history. The peoples of all nations have an inalienable right to self-determination and to preserve their native culture and traditions.

RACIAL SEPARATION

Race is the main determining factor in nationality. Racially mixed societies cannot form one nation and are therefore unstable. No one race is "superior" to others, but they are all *different*. Racial integration threatens all races. Humane repatriation is better for us all than endless repression and racial violence.

SOCIAL JUSTICE

The nation is a great family. Every member of our national family has the absolute right to care at the nation's expense when young, sick or old. There must be equal opportunity for all, but unearned privilege for none.

WELL DISTRIBUTED PROPERTY

The realistic opportunity to own one's own home and place of work is the right of all our people. Direct ownership of the means of production and distribution is essential for individual freedom, for family stability and for the best use of our national resources.

SANITY IN FINANCE

The right to create the credit needed by the economy must belong to the people's government. The banks which have usurped this right must be stripped of their unjust gains and power. The National Debt is based on usury and must be repudiated.

RESPECT FOR NATURE

We hold the environment in trust for future generations. Pollution of the land, sea and air, and of the gene pool through radiation, is a betrayal of that trust.

DIRECT DEMOCRACY

Parliamentary representation is a fraud. Party rule is a cloak for the dictatorship of vested interests and media bosses. Government must be in the hands of the people themselves, through new information technology and the election of delegates to carry out their wishes. Power must be devolved to the lowest possible level

THE ARMED PEOPLE

The freedoms given by these principles must be defended through armed neutrality, with well-equipped national defence forces involving the entire adult population. Power, wealth and arms in the hands of the people!

REVOLUTION NOT REFORM

These changes cannot be brought about by tinkering within the System, or by relying on the System's own institutions, such as parliament, schools or the courts. They can only spring from a National Revolution. This revolution must begin in the hearts of individuals, then spread by their example to involve whole communities in revolutionary structures such as alternative councils and schools, neighbourhood patrols and self-help groups. Once we cease to depend on the institutions of the old State, it will be swept aside.

THE THIRD WAY

The growth of these ideas in nation after nation shows that a new force is rising in the world for the 21st Century. Leaving behind the sterile hatreds of Capitalism and Communism, this *Third Way* offers a real future for all our peoples. We urge all those who agree with these principles to join with us in the struggle to build the National Front – the Movement of the Future.

Yes! I'm prepared to back up the sacrifice of the NF's activists by doing something to change things for the better.

I wish to be registered as a *Friend of the Movement* for 1988. Please rush me my card and keep me informed of major developments within the National Front.

The **E & T Department** has requested that the Questions relating to books to be read by cadres and candidate cadres appear in this column over the next couple of issues of the paper. The answers will be appearing shortly in booklet form. Those intending to apply for this status in the Movement can begin their preparation now.

1. Why were Wingfield and Anderson accepted by the radicals following the axing of Webster?

2. What evidence is there to suggest that the reactionaries were planning a factional struggle a year *before* the outbreak of conflict?

3. What did the **Security Department** find while going through his files which further highlighted the essential corruption of Ian Anderson?

4. What stance was adopted by the reactionaries to the Movement's growing involvement in Ulster?

5. What technique was used by Wingfield to close prematurely the debate at the Directorate meeting called to discuss corruption charges against Anderson?

6. After the defeat of their High Court action, four reactionaries were suspended from membership. What was the basis of the disciplinary charges made against them?

7. What reasons are suggested in *Attempted Murder* as laying behind Pearce's defection to the reactionaries?

8. What is the lesson to be learned from his decision?

9. State in your own words what you think is meant by the assertion, towards the end of the book, that reactionaries always act as the fifth column for the enemies of Revolutionary Nationalism? What lessons can we learn from this?

WHAT IS TO BE DONE?

THIS COLUMN is specially designed to keep all NF officials well informed of forthcoming activities and to remind them of what needs to be done over the next two weeks.

All NF officials and activists must therefore make it a **top priority** to read this column carefully each issue, and then to *act* on the information.

* **NFN SUPPORTERS CARDS.** These cost units £3 each. This money is recouped in profit to the unit from papers sold to the Supporter over the year. When the card is full, the member starts another one which the unit has bought from Admin.

* **NEW UNITS.** Regions or units which help to establish a new ***NFN Supporters' Unit*** must make every effort to ensure that it is included in the literature run as a spearate stop as quickly as possible. This is essential for effective internal communications. New units should *not* be allowed to open PO Boxes until the RPO is satisfied of their basic ideological and tactical soundness. New officials must sign the oath of loyalty before Movement assets are put under their control. The individual in whose name the PO Box is opened must give the RPO a signed letter acknowledging that it is held in trust for the NF.

* **DISTRIBUTIST LEAGUE.** All proposals for new D.L. items must be raised with and cleared in writing with the D.L. Co-ordinator, PO Box 57, Romford.

Units should also note that once old lit. credit debts are cleared in exchange for advertizing, their D.L. adverts in NF publications must be paid for promptly. Invoicing for this will begin shortly. No money – no advert!

* **MAY ELECTIONS.** Units must prepare for these now. Parish council elections should be contested as well as larger council ones. Units will be contacted directly shortly with more information on NF tactics in this field.

* **CODE OF CONDUCT.** A Code of Conduct for Cadres and C.C.s is being drawn up. This will cover general moral attitudes as well as organizational requirements. Drafts will be circulated in due course for discussion, but proposals from C.s and C.C.s are welcome straight away. Send to PO Box 228.

* **INTRODUCTION TO THE MOVEMENT BOOKLET** must be purchased in bulk by each unit so that it can be given to enquirers who get in touch locally. This booklet neatly replaces the earlier assortment of odd forms and old papers which an enquirer needed to read to form an accurate picture of the NF and decide on a suitable level of involvement.

Units should also distribute copies to selected target groups, particularly 18 year olds whose birthday dates appear in the electoral. Samples should also be sent out with press statements about such recruiting drives.

ANOTHER NEW UNIT

THE LATEST of the new *NFN Supporters* units springing up throughout our nations is **Crowborough and North Weald** in East Sussex.

Crowborough was an undiscovered area for the Movement until recently and the group of recent recruits were not banking on great success. But to their surprise they managed to sell all of their supply of *NFN* in just two days. With the help of NF cadres from Croydon, a total of 40 copies were sold. Considering only 217 households were visited on quite a wealthy estate, this shows clearly the value of door to door sales. More than twelve pounds was raised, some of which has already paid for further copies of *NF News.*

The members of the new unit are aware that they face an uphill struggle to get properly established, but are determined to succede. And; their organizer has this message for activists in other parts of the country:

"We hope our early success will serve as an inspiration to those who doubt the credibility of forming a unit on 'virgin ground.' Never rule out failure – but never under-estimate your potential."

LIVERPOOL

NFN Supporters in Liverpool have produced a hard-hitting leaflet after a secret report by the city's Director of Housing to the council's Equal Opportunities Committee was sent anonymously to their PO Box. A section of the report mentioned the cases of 7 White families who were the victims of racial harassment by Blacks. It stated that the main action taken in this regard was to offer to "mediate" between the families and the attackers.

The NF leaflet asks why the local paper, the *Liverpool Echo* has run a long campaign claiming that racial violence in the city is perpetrated entirely by Whites against Blacks, but failed to report these serious cases of anti-White violence.

And it also drew attention to the lack of action by the police and to the failure of Liverpool City Council to carry out its policy of evicting council tenants who racially harass their neighbours.

This clear evidence that there is one law for immigrants and another for the oppressed White working class has angered many people in the area. Now the local NF supporters are working to turn that anger into *political* opposition to the multi-racists, most of whom are rich upper class white liberals or Marxists.

Student Project

NFN Supporters in Birmingham are working on a pilot scheme project to give students in the West Midlands the opportunity to find out what the Movement really stands for. A brief outline of our fundamental beliefs is being sent out as a covering letter with a sample copy of ***NFN*** and ***Nationalism Today.***

The letter points out that *"contrary to Marxist and Zionist opponents who attempt to incite violence against our Movement, the National Front totally rejects racial hatred, recognizing and respecting that peoples of all other Nationalities also have their own identity and culture."*

It points to figures such as G.K. Chesterton and William Morris as our ideological forebears and concludes with a stirring call to action:

"The path to the future, to social and economic justice, to freedom, to moral regeneration and to spiritual heritage stands with the rejection of the present coca-cola Capitalism, Materialism, Multi-racialism, financial corruption and regressive Marxism. "The fight for that future has started with the National Front. Will you support the fight to build a political and social system of popular participation that will ensure that the Red Rose and Rule Britannia sweethearts are swept from power for ever?"

It certainly makes a welcome change from the football hooligan approach for which "Nationalists" in Birmingham were notorious for too long. No-one is naive enough to expect rapid progress, but local activists believe that it is better to build steadily on firm foundations than to go for quick but weak growth based on the sand of cheap slogans and squalid hatreds.

A Day in the LIFE

THE LOCAL Chairman of the anti-abortion group 'Life' was the guest speaker at the December meeting of ***NFN Supporters*** in Oldham. Life chairman Mr Whitehead spoke about the work of his organization and demolished the evil case of the pro- abortionists. In a well-illustrated talk, he explained the massive scale of the destruction of unborn children in Britain.

At the end of his talk, Mr Whitehead thanked the unit for allowing him to speak. Although his speech was non-political, he did acknowledge that 'Life' and the National Front were both the victims of the same kind of media lies and distortion. He commented that he was "very pleased that the National Front was a pro-life organization."

The Oldham *NFN* unit then proceeded to bombard Mr Whitehead with dozens of questions about the abortion issue, which he answered with obvious pleasure.

Mr Whitehead stated from the outset that his organization is non-political, and that he was prepared to show this by addressing an NF meeting. It certainly showed that he has the courage of his convictions, and provided one of the most stimulating meetings of the year.

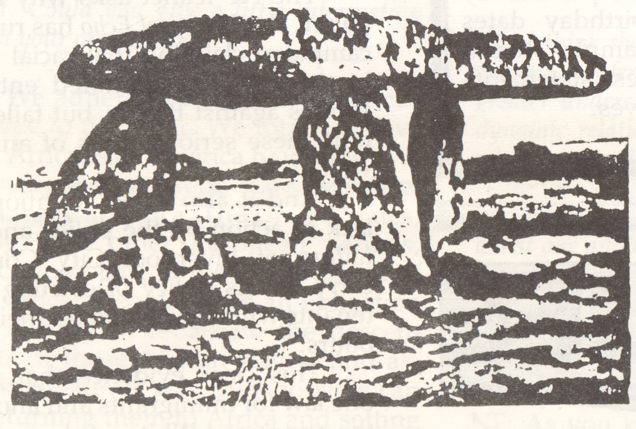
History, Identity, Culture

IF THE SHACKLES of the imperialist Anglo-Irish Agreement are to be broken, Ulster must reassert its ancient right to self- determination. But our independent Nation must have a focus of loyalty for all our people. This loyalty shouldn't be directed towards any 'leader' or State institution. Instead we must look to Ulster's *true* folk culture, identity, language and history.

To promote this ideal, *NFN* is examining Ulster's formative years, from pre-Christian times up until the Plantations ….

heritage



A typical dolmen erected by our early ancestors.

THE MESOLITHIC or Middle Stone Age period saw the island of Ireland's first settlers. They came from the west of Britain around 7000 BC. Attracted by the excellent flint – still found in the chalk outcrops of the Antrim coast – they made tools and weapons for hunting and fishing.

Farming was introduced around 4000 BC in the Neolithic or Late Stone Age. Neolithic man built over 300 tombs and monuments here. Similar graves also exist in south-west Scotland. Some of these represent the oldest stone buildings in the world.

It used to be believed that before the advent of the Celts, Western Europe was inhabited by ignorant savages. This is not so. Metalwork and new styles of pottery were being locally developed around 2000 BC. Bronze Age jewelry is stunningly beautiful, often in skillfully worked gold.

SOPHISTICATED

Although Europe was covered with dense forests, the Bronze Age saw the development of a sophisticated communications network. Trade, including tin, was common between Ireland, Cornwall, Brittany and northern Spain. Our ancestors were skilled navigators, finding it easier to move by sea than through the forests. Contact with south west Scotland in particular has been continual for thousands of years.

This period also saw the construction of stone monuments which are earlier and superior to those in the Middle East of which they were once thought to be copies.

By about 250 BC, Iron replaced Bronze as the main metal. This is now thought to be more due to technological advance than to invasion by new peoples, though some undoubtedly did move from Europe to join their cousins in Britain. But even now, the island of Ireland was less affected by continental influences. Our ancestors were already evolving a separate identity.

OUR NEXT issue will examine the influence of the Celts, whose great culture dominated Europe for generations.

The Struggle goes on!

MANY PEOPLE have been brainwashed into believing that Ulster folk originate from the "Scottish" planters who came here in the 17th Century. We are portrayed as immigrants who came to dispossess, and oppress, the "native Irish" population.

This is not true. The true history of Ulster shows that we are here because this is our ancient homeland. People of our blood and cultural heritage have lived here for far longer than folk of Saxon stock have lived in England. This is why we have the right to reject rule by Dublin and to determine our own destiny.

Ulster's earliest inhabitants – to whom we can give a definite name – were the Cruthin. A people of the same name also lived in Scotland. They were all part of the ancient Pictish nation. Pressure and invasion from southern tribes caused many Ulster Cruthin to move to western Scotland. Thus the returning "Scots" were as Pictish as those among whom they settled.

ANCIENT LAND

Only a small number of the planters were involved in land grabbing. These were the well to do gentry. But the vast majority of planters were as poor as the people already living in Ulster when they arrived. We are not the descendants of upper class immigrants who oppressed the native Irish. The planters among our ancestors were hard-working small farmers returning to their ancient homeland.

For years, the majority have held that Ulster's identity and culture is best preserved by maintaining the link with Westminster. *This is no longer the case.* The British State doesn't want us any more!

The Anglo-Irish Agreement simply represents yet another attempt to ditch Ulster. Westminster may dump us at the end of this year – or they may do it in 5, 10 or 20 years time. In a sense the timing doesn't matter. What matters is that Ulster has *already* been kicked out of the United Kingdom. We have *already* been denied our basic democratic rights.

Thatcher has kicked Ulster out of the 'United Kingdom' and has signed our liberties away.

This is why working to destroy the Agreement isn't enough. If it disappeared tomorrow, nothing would change. Eire wouldn't drop her imperialistic aims. We'd still have Direct Rule by London bureaucrats. We'd still suffer more years of death, misery, poverty and destruction.

"Ulster will fight
Carson in action.

STERILE

Our "leaders" fail to see this. As they are negative and short-sighted, this isn't surprising. They haven't any positve or constructive ideas for the future. Therefore opposition to the Agreement has become the *only* aspect of Ulster's "fight" under their sterile command. No wonder the "campaign" has failed and left thousands disillusioned.

Our Republican enemies are also opposed to the Agreement. But *they* haven't been sidetracked from their ultimate objective: a Marxist United Ireland. **We must not be sidetracked from our ideal of an independent Ulster.**

The struggle against the Agreement must go on. We need to confront Westminster and Dublin in a series of small battles – waged on the political, economic, cultural and community fronts. These battles must be of our choosing and on our terms. But above all, we must look beyond the Agreement, beyond Republicanism and Unionism, and start to lay the foundation stones of our future Ulster!
